

Cogent Biosciences Provides Corporate Updates and Reports Second Quarter 2021 Financial Results

August 16, 2021

Initiated Phase 2 open-label clinical study (APEX) for bezuclastinib (CGT9486) in patients with Advanced Systemic Mastocytosis (AdvSM)

SUMMIT study for patients with Non-Advanced Systemic Mastocytosis (NonAdvSM) on track to start 2H 2021 following recent positive interactions with FDA

**Formed Cogent Scientific Advisory Board, including several world-class experts in targeted therapy
Ended Q2 2021 with \$218.1 million in cash, sufficient to fund operations into 2024**

CAMBRIDGE, Mass. and BOULDER, Colo., Aug. 16, 2021 /PRNewswire/ -- Cogent Biosciences, Inc. (Nasdaq: COGT), a biotechnology company focused on developing precision therapies for genetically defined diseases, today announced financial results for the second quarter ended June 30, 2021 and provided corporate updates.

"People fighting advanced systemic mastocytosis live every day in need of additional treatment options. We initiated the Phase 2 APEX clinical study for our lead program bezuclastinib, designed to specifically target the underlying genetic cause of advanced systemic mastocytosis with the goal of providing new therapeutic options for patients," said Andrew Robbins, President and CEO of Cogent Biosciences. "In addition, we look forward to advancing bezuclastinib into two new clinical studies by the end of 2021, including the SUMMIT study for patients with non-advanced systemic mastocytosis, while actively progressing novel discovery programs with the recently formed Cogent Research Team."

Recent Program and Corporate Highlights

- **APEX Study in AdvSM Patients Initiated**
 - Cogent initiated APEX, a Phase 2 clinical study of bezuclastinib in patients with AdvSM. APEX is an open-label, global, multicenter study that will evaluate the safety, efficacy, pharmacokinetic, and pharmacodynamic profiles of bezuclastinib. Learn more about the APEX study at www.cogentclinicaltrials.com
 - Cogent expects to report preliminary clinical data from the APEX study in the first half of 2022, including levels of serum tryptase, a validated biomarker of mast cell activity.
- **SUMMIT Study of bezuclastinib in NonAdvSM Patients on track to start 2H 2021**
 - Following recent positive interactions with FDA, Cogent is on track to initiate SUMMIT, a randomized, double-blind placebo-controlled Phase 2 clinical study of bezuclastinib in patients with NonAdvSM.
- **FDA Granted Orphan Drug Designation for bezuclastinib in GIST (Gastrointestinal Stromal Tumors)**
 - FDA granted orphan drug designation for bezuclastinib for the treatment of GIST with an estimated 4,000 to 6,000 GIST cases diagnosed annually in the United States.
 - Cogent remains on track to initiate a new study of bezuclastinib and sunitinib in GIST patients during 2H 2021.
- **Cogent Research Team continues to evolve efforts in pioneering best-in-class, small molecule therapeutics**
 - Based in Boulder, Colorado, the Cogent Research Team continues to focus on developing best-in-class, small molecule therapeutics to expand Cogent's pipeline and deliver novel precision therapies for patients living with unmet medical needs.
 - Announced long-term lease on ~40,000 sq. ft. facility which will serve as laboratory and office space headquarters

for Cogent Research Team.

- **Formed the Cogent Scientific Advisory Board**

- Comprised of world-class experts involved in the discovery and development of novel therapeutics for patients with genetically-driven diseases, this group has been brought together to provide external perspective for the Cogent Research Team as it develops a robust portfolio of novel, small molecule discovery programs designed to address significant patient unmet needs.

- **Dr. Ryan Corcoran, MD, PhD** - Director of the Gastrointestinal Cancer Center Program and Scientific Director, Termeer Center for Targeted Therapy at the Massachusetts General Hospital Cancer Center and Associate Professor of Medicine at Harvard Medical School
- **Dr. Michael Vasconcelles, MD** - Chief Medical Officer of Flatiron Health, a healthcare technology and services company focused on accelerating cancer research and improving patient care
- **Dr. Srdan Verstovsek, MD, PhD** - United Energy Resources, Inc. Professor of Medicine and a hematologist-oncologist at the MD Anderson Cancer Center, Houston, Texas, USA
- **Dr. Kwok-Kin Wong, MD, PhD** - Director, Division of Hematology and Medical Oncology, Anne Murnick Cogan and David H. Cogan Professor of Oncology, Department of Medicine, Laura and Isaac Perlmutter Cancer Center, NYU Langone Health

Second Quarter 2021 Summarized Financial Results

- **R&D Expenses:** Research and development expenses were \$12.4 million for the second quarter of 2021 as compared to \$5.1 million for the second quarter of 2020. R&D expenses include non-cash stock compensation expense of \$1.0 million for the second quarter of 2021 compared to \$0.5 million for the second quarter of 2020.
- **G&A Expenses:** General and administrative expenses were \$4.9 million for the second quarter of 2021 as compared to \$2.8 million for the second quarter of 2020. G&A expenses include non-cash stock compensation expense of \$1.6 million for the second quarter of 2021 compared to \$0.4 million for the second quarter of 2020.
- **Net Loss:** Net loss was \$16.5 million for the second quarter of 2021 as compared to a net loss of \$7.4 million for the second quarter of 2020. During the second quarter of 2021, the company spent \$12.6 million of its cash and cash equivalents.
- **Cash and Cash Equivalents:** As of June 30, 2021, Cogent had cash and cash equivalents of \$218.1 million. The company believes that its cash and cash equivalents will be sufficient to fund its operating expenses and capital expenditure requirements into 2024.

About Cogent Biosciences, Inc.

Cogent Biosciences is a biotechnology company focused on developing precision therapies for genetically defined diseases. The most advanced clinical program, bezuclastinib, is a selective tyrosine kinase inhibitor that is designed to potently inhibit the KIT D816V mutation as well as other mutations in KIT exon 17. KIT D816V is responsible for driving systemic mastocytosis, a serious disease caused by unchecked proliferation of mast cells. Exon 17 mutations are also found in patients with advanced gastrointestinal stromal tumors (GIST), a type of cancer with strong dependence on oncogenic KIT signaling. In addition to bezuclastinib, the newly formed Cogent Research Team is developing a portfolio of novel targeted therapies to help patients fighting serious, genetically driven diseases. Cogent Biosciences is based in Cambridge, MA and Boulder, CO. Visit our website for more information at www.cogentbio.com. Follow Cogent Biosciences on social media: [Twitter](#) and [LinkedIn](#). Information that may be important to investors will be routinely posted on our website and Twitter.

Forward Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including, but not limited to, statements regarding: discussion of the company's business and operations; projected cash runways; future product development plans; clinical development plans and timelines including for its lead program, bezuclastinib, and the expectation to initiate two new clinical trials before the end of 2021; the anticipated contributions of the Cogent Research Team; and the company's expectation to report preliminary data from its Apex study in the first half of 2022. The use of words such as, but not limited to, "anticipate," "believe," "continue," "could," "estimate," "expect," "intend," "may," "might," "plan," "potential," "predict," "project," "should," "target," "will," or "would" and similar words expressions are intended to identify forward-looking statements. Forward-looking statements are neither historical facts nor assurances of future performance. Instead, they are based on our current beliefs, expectations and assumptions regarding the future of our business, future plans and strategies, our clinical results, the rate of enrollment in our clinical trials and other future conditions. New risks and uncertainties may emerge from time to time, and it is not possible to predict all risks and uncertainties. No representations or warranties (expressed or implied) are made about the accuracy of any such forward-looking statements. We may not actually achieve the forecasts or milestones disclosed in our forward-looking statements, and you should not place undue reliance on our forward-looking statements. Such forward-looking statements are subject to a number of material risks and uncertainties including but not limited to those set forth under the caption "Risk Factors" in Cogent's most recent Annual Report on Form 10-K filed with the SEC, as well as discussions of potential risks, uncertainties, and other important factors in our subsequent filings with the SEC. Any forward-looking statement speaks only as of the date on which it was made. Neither we, nor our affiliates, advisors or representatives, undertake any obligation to publicly update or revise any forward-looking statement, whether as result of new information, future events or otherwise, except as required by law. These forward-looking statements should not be relied upon as representing our views as of any date subsequent to the date hereof.
