

Cogent Biosciences to Present at 11th Annual SVB Leerink Global Healthcare Conference

February 9, 2022

CAMBRIDGE, Mass. and BOULDER, Colo., Feb. 09, 2022 (GLOBE NEWSWIRE) -- Cogent Biosciences, Inc. (Nasdaq: COGT), a biotechnology company focused on developing precision therapies for genetically defined diseases, today announced Andrew Robbins, Chief Executive Officer and President, will participate in a fireside chat during the 11th Annual SVB Leerink Global Healthcare Conference, taking place virtually February 14 – 18, 2022.

The fireside chat will stream live Wednesday, February 16 at 10:00 a.m. ET, after which a recording will be available to conference attendees for 90 days. Links to the webcast and recording registration page can be found under the "Events" tab on the investor relations section of the Cogent Biosciences website at: <https://investors.cogentbio.com/events>.

About Cogent Biosciences, Inc.

Cogent Biosciences is a biotechnology company focused on developing precision therapies for genetically defined diseases. The most advanced clinical program, bezucastinib, is a selective tyrosine kinase inhibitor that is designed to potently inhibit the KIT D816V mutation as well as other mutations in KIT exon 17. KIT D816V is responsible for driving systemic mastocytosis, a serious disease caused by unchecked proliferation of mast cells. Exon 17 mutations are also found in patients with advanced gastrointestinal stromal tumors (GIST), a type of cancer with strong dependence on oncogenic KIT signaling. In addition to bezucastinib, the Cogent Research Team is developing a portfolio of novel targeted therapies to help patients fighting serious, genetically driven diseases. Cogent Biosciences is based in Cambridge, MA and Boulder, CO. Visit our website for more information at www.cogentbio.com. Follow Cogent Biosciences on social media: [Twitter](#) and [LinkedIn](#). Information that may be important to investors will be routinely posted on our website and Twitter.
